Additional Instructions
Synopsys' Customer End Use Export Screening Checklist

1. This is document is required by Synopsys to comply with regulations. Completion is mandatory.

2. Please answer all questions.

3. If you answer "yes" to any of the questions 1 to 7 then please provide a full and clear explanation on your official organization's letter head paper. Please attach and return with the checklist.

4. Please arrange for this document to be completed by and signed by a person of appropriate authority within your Organization. If the Synopsys software tools and technology are used within multiple locations within your organization (e.g., different departments) then this completed statement must reflect all locations and the whole usage.

5. Synopsys may need to contact you. Please therefore provide full contact details on the form.

6. Please complete the form clearly and legibly. Please complete all sections, and the form must be signed and dated. If you have a university stamp, please add this by your signature.

7. If your organization is a university that is funded by your government then you should answer no to question 7. If your organisation is a research laboratory/organisation that is funded directly from your government with a clear management chain to government then you should answer yes and elaborate/explain on your letterhead which you attach and return with this checklist.

8. These additional instructions do not form part of the document and should not be included with your final document.

9. Please complete and return a high quality, colour, scanned PDF copy along with any additional explanation on letterhead by email to MicroelectronicsCentre@stfc.ac.uk

What next?

The Microelectronics Support Centre will forward these checklists and accompanying documentation (if any) to the appropriate department within Synopsys.

Future documents

Currently it is our understanding that Synopsys will require this checklist to be re-completed annually. However, if your circumstances change in the interim please complete and submit a new form. Synopsys may require that some institutes complete a more in-depth questionnaire so that Synopsys can comply with export regulations.

Questions?

If you have any questions then please contact the Microelectronics Support Centre (email: MicroelectronicsCentre@stfc.ac.uk). However, please note that this checklist is a document that is defined by Synopsys. It will be processed and interpreted by Synopsys. The Microelectronics Support Centre at STFC Rutherford Appleton Laboratory is distributing this checklist as part of the administration required to make Synopsys licenses available through the Europractice project.
